

SAFETY NOTICE

DANGER – RISK OF SHOCK

PLEASE RESPECT THE FOLLOWING WARNINGS:

- Connect **ONLY** to a properly grounded plug receptacle.
 - **DO NOT** remove, bend or modify any metal prongs or pins.
 - **DO NOT** connect a three-prong plug into a two-hole cord or plug.
- **NEVER** look directly into LEDs.
- **AVOID** manipulating the lamp when it is on.
- **AVOID** any contact of liquid with the lamp.
- **DO NOT** use the lamp if the glass is broken.
- **ALWAYS** use in a horizontal position, illuminating downwards.
- **NEVER** block air openings.
- **ONLY** LED Innovation Design can service the lamp.
 - The lamp contains high-voltage circuits, **NEVER** open the casing.
- Suitable for dry or damp locations, **NOT** for wet locations. See the “Use of the TI SmartLamp near wet locations” prior to operating in a wet location.
- Indoor use only.
- To use the TI SmartLamp with an input voltage of 220V, you can replace the 110V plug by a 220V plug. You can either use a phase-to-neutral or a phase-to-phase connection. The green cable is the ground connection (earth) and must be used for safety reasons.
 - Operating voltage: 110V – 250V (50Hz – 60Hz).
 - If needed, select a Ground Fault Circuit Interrupter (GFCI) device with the appropriate input voltage.

IMPORTANT: REPLACEMENT OF THE PLUG MUST BE DONE BY A QUALIFIED PERSON WHO UNDERSTANDS ELECTRICAL CIRCUITS.

IGNORING THESE WARNINGS COULD BE POTENTIALLY LETHAL AND WILL VOID YOUR PRODUCT WARRANTY.
